

DSL Safety Performance

DSL consider Safety as Paramount and as such have strived to ensure Safety is placed First at all work locations Globally. In the last three years DSL have not only maintained their impressive Safety record, but have consistently achieved a Lost Time Incident Frequency Rate (LTIFR) of less than 0.25 and in 2015 actually achieved an “all- time best” LTIFR of 0.00.

Year	Total Man-Hours Worked	Lost Time Incidents	Lost Time Incident Frequency Rate
2013	413695	1	0.24
2014	408714	1	0.24
2015	374616	0	0.00
2016 (up to end Feb)	56736	0	0.00

Whilst this is impressive we know that “in our industry” we cannot in any way become complacent and therefore DSL strive to further develop our Safety culture to ensure realistic Safety targets are set and achieved by Leadership; Teamwork and Communicating the Safety Message to all DSL work groups.

DSL are members of the “FPAL Oil and Gas Supplier Verification Scheme” (First Point Assessment Ltd) and are able to benchmark performance and profile scores against our competitors.

The FPAL chart below shows DSL benchmarked against six similar companies (FPAL does not permit disclosure of competitor names) within our industry and HSE is captured in the sections identified by the transparent blue box.

The chart below shows the FPAL Performance Bands, DSL scored approximately 9 in both Health, Safety and Environment.

3. Performance Bands

Performance is evaluated on a 1 to 10 scale across five bands ranging from “excellent” to “poor” as broadly defined below:

“Excellent” Supplier performance exceeded all expectations and fulfilled all specified requirements.

“Good” Supplier performance fully satisfied all expectations; met requirements without support; no identifiable improvements.

“Adequate” Supplier performance generally satisfied expectations and met requirements but needed some support to ensure required performance was achieved; improvement opportunities identified.

“Mediocre” Supplier performance did not satisfactorily meet all the specified requirements; Buyer incurred additional support costs to achieve required performance.

“Poor” Supplier standard of performance below that needed for repeat business; severe deficiencies in service performance.
